# EXPECTING

**SAFETY DATA SHEET (SDS)**

# EXPECTING SAFETY DATA SHEET (SDS)

## I. IDENTIFICATION

Product Identity: EXPECTING (Peppermint, Lavender, Ginger, Lemon, Lime )

Essential Oil Inhaler

Inhalation Only

## II. Hazards

Ingredients in the product are not known or classified as hazardous. The ingredients are proprietary therapeutic grade pure essential oils in vapor form only. Contains no other additives.

## III. COMPOSITION

Contains the following substances provided as a passive, low ambient concentration vapor; Peppermint (*Mentha piperita*), Ginger (*Zingiber officinale*), Lavender (*Lavandula angustifolia*), Lemon, Lime)

## IV. FIRST AID MEASURES

General: move to fresh air. If breathing is difficult, give O<sub>2</sub>. If not breathing, provide artificial respiration. Seek medical attention.

## V. FIRE FIGHTING MEASURES

Extinguishing Media:

CO<sub>2</sub>, foam, or dry chemical

Unusual Fire and Explosion Hazards:

NONE; material is not pyrophoric, does not react with water, not oxygen donor, material is shock stable.

## VI. ACCIDENTAL RELEASE MEASURES

No accidental release measures apply.

## EXPECTING SAFETY DATA SHEET (SDS)

### **VII. HANDLING AND STORAGE**

Store in tightly sealed containers in cool dry area. Avoid exposing to temperatures above 35 degrees Celsius. Store out of direct sunlight; exposure to light accelerates decomposition. Stable under recommended storage conditions.

### **VIII. EXPOSURE CONTROLS/PERSONAL PROTECTION**

This product is non-hazardous. No known health hazards with acute or chronic exposure. No personal protective measures required.

### **IX. PHYSICAL AND CHEMICAL PROPERTIES**

Physical state: vapor

Odor: characteristic

Flash point: 154 degrees

### **X. STABILITY AND REACTIVITY**

Hazardous polymerization will not occur. Stable under normal circumstances. No data available on hazardous reactions. Avoid excessive heat.

### **XI. TOXICOLOGICAL INFORMATION**

No known acute or chronic toxicity hazard. No known carcinogen hazard.

### **XII. ECOLOGICAL INFORMATION**

No known toxicity, persistence and degradability or bio accumulative potential.

### **XIII. DISPOSAL CONSIDERATIONS**

No special handling required. Follow local, state and federal waste disposal laws.

## ALGORITHM FOR MEDICAL USE OF QueaseEASE

At first sign of patient nausea:

- Open EXPECTING, hold near nose or mouth and instruct patient to take several deep breaths. May be used as often as necessary.
- EXPECTING may be used continuously. Place open EXPECTING near patient's airway, for continuous passive diffusion.
- Label EXPECTING with patient sticker.
- Place EXPECTING in patient's hand or other accessible location when discharging, to allow easy access in the event of motion related queasiness.
- Instruct patient to use as often as needed for post discharge nausea.

**EXPECTING is intended for SINGLE PATIENT USE.**
